

IN THE SPECIFICATION:

Please substitute the paper copy of the Sequence Listing into the specification after the Abstract of the Disclosure (p. 84), replacing all Sequence Listing previously submitted to the United States Patent and Trademark Office including those submitted on December 5, 2000, February 9, 2001, April 3, 2001, and June 1, 2001. The Sequence Listing thus becomes pages 85-99 of the specification.

Please replace the text on lines 8-12 on page 7 of the specification with the following text:

--Figure 10. **The sequence of the proximal promoter region of the mda-5 (SEQ ID NO:3) gene showing landmark restriction sites.** The initiator Methionine codon is highlighted by an open box as are the BstXI sites used to perform an internal deletion that removed the ATG as described in the text.--

REMARKS

Applicants respectfully submit herewith a Sequence Listing in paper and computer-readable form. The Sequence Listing was not included in Applicants' August 21, 2002 response through inadvertent error. Please enter this Sequence Listing into the specification of the above-captioned application.

I hereby state that the content of the paper and computer readable copies of the revised Sequence Listing submitted in accordance with 37 C.F.R. §§ 1.821(c) and (e), respectively, are the same.
